

Cantilever

CANTILEVER

The patio umbrella all others aspire to be. The stunning Cantilever umbrella is manufactured with unique long lasting polished cast aluminium hubs, a stainless steel and aluminium frame with wooden struts. Canvas colours available from the Cedarbrook and Sunbrella Range.

OPTIONS

SHAPE & SIZE

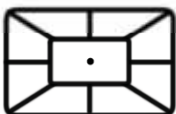

Square
8 strut in:
3.0 meter

OR

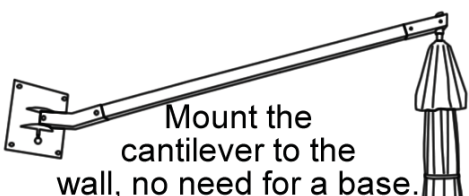

Octagonal
8 strut in:
3.0 meter
4.0 meter

OR

Rectangle
8 strut in:
3.5 x 2.7 meters

WALL MOUNT

Strut configuration:

Eight wooden struts, Karrigum/Saligna plantation grown hardwood with FSC grading wooden struts coated with a clear UV lacquer.

Height:

2,2m at rim. Provides more shade and no head bumping for taller people.

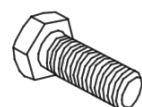

Hubs & Opening Mechanism:

Virtually indestructible die-cast aluminium polished hubs (**2 year warranty**). Unique Patented lifting Power Mechanism.

Versatility:

Rotates through 360° to accommodate sun position. Removable canopy. Minimum space requirement of 4.5 x 4.5 meters for installation.

Joints / Fittings:

75mm x 75mm anodised aluminium beams with a wall thickness of 3mm; three brushed stainless steel, laser cut connecting sleeves. Stainless steel connecting bolts; stainless steel base frame.
